

# wine to water

## Water Facts:

- Nearly one billion people live without access to clean water.
- The water and sanitation crisis claims more lives through disease than any war claims through guns.
- More children die from water-related illnesses than AIDS, malaria and measles combined.
- Every 20 seconds a child dies from a water-related disease.
- The average American individual uses 100-176 gallons of water a day; the average African family uses five gallons of water a day.

## Who we are:

WTW is a 501(c)3 non-profit aid organization focused on providing clean water to people in need. It is our goal to ensure sustainability in each of our projects. We also believe in the importance of working with locals to train and educate them on how to solve their own water problems. Since our establishment in 2004, WTW has worked in twelve countries around the world including Sudan, Uganda, India, Cambodia, Peru, Ethiopia, Sri Lanka, South Africa, Ecuador, Zimbabwe, and Haiti.

## Project Highlights:

### Haiti

In response to the earthquake in Haiti Wine To Water began distributing ceramic water filters to people in need. These filters cost \$30 and can provide clean water for a family of ten for up to five years.

### Cambodia

There is a huge need for clean water in Cambodia. Only 36% of the population has access to safe drinking water. For as little as \$500 you can provide a well for a needy community in Cambodia.

### Uganda

The Bio-Sand Filter project in Uganda is one of Wine To Water's largest projects. A BSF can filter out 98% of all impurities found in water sources, including bacteria. BSF's are distributed for use in homes, schools and hospital clinics. These filters cost \$100 and can provide clean water for up to ten years.

### Ethiopia

In collaboration with our partners we helped purchase a drill rig capable of drilling over 650 feet in depth. Wells in Ethiopia cost nearly \$15,000, but with a donation of \$150, you can give one family clean water for a lifetime.

how you can help:

Learn about the international water crisis

Tell people about Wine To Water

Host an event

Make a donation

Buy our wine
