

RESOUND VISION 2011

The **Resound Conference** is about bringing worshipers together who carry an insatiable hunger for the very presence of God. For one weekend of extended worship and teaching, we challenge each other to be worshippers, dreamers, and bearers of light in a broken world. Through music and the arts we join in one voice to amplify the name and glory of Jesus Christ.

We know there are worship leaders, artists, musicians, and worshippers who need the equipping and encouragement that will be available at the Resound Conference but may not be able to afford the cost.

That's not acceptable.

We will do our best to remove obstacles, raise funds, and reduce the overall cost so that anyone who needs to come can come.

We will tell the stories of our friends and worship leaders around the world and invite each other to share the story. We refuse to be consumers of worship, but will challenge each other to be catalysts of worship in our region and to the ends of the earth. We will unapologetically dare worshippers to invest financially, prayerfully, and creatively into funding worship projects in developing nations.

As the vision is caught and the Holy Spirit captures hearts, we will use all available resources to host missional worship conferences and fund recording projects for worship leaders all around the world. God is raising up passionate, Jesus-loving leaders and artists all around the world and our desire is to resource them in creating and recording songs in their native tongue to fuel the worship of the global church.
